Introduction

Focused community service project supporting orphaned children and promoting girls' education. Addressed food insecurity, mental health, gender equality, and climate action through independently planned group activities.

Aim: create measurable social impact by providing resources, raising awareness, and mobilizing community participation.

01 Project Overview

Goals

Provide targeted support to orphaned children and promote girls' education.

Key objectives: distribute

books and stationery, conduct *mental health* and AI awareness sessions, promote gender equality, and run environmental initiatives to improve community welfare.

Need Assessment

- ❑ Limited access to education for orphaned children and gender-based barriers hinder school attendance and retention. Poverty and food insecurity reduce learning capacity and wellbeing.
- ❑ Project addressed mental health stigma and environmental hazards through targeted awareness and cleanup activities, aligning efforts with community needs and civic responsibility.

SDG Alignment

- ❑ The project supported key SDGs:
- ❑ **No Poverty (SDG 1)** through orphan support,
- ❑ **Zero Hunger (SDG 2)** via Ramadan food distribution,
- ❑ **Quality Education (SDG 4)** by providing books and stationery,
- ❑ **Gender Equality (SDG 5)** through awareness,
- ❑ **Climate Action (SDG 13)** with cleaning and plantation drives.

01

Activities & Impact

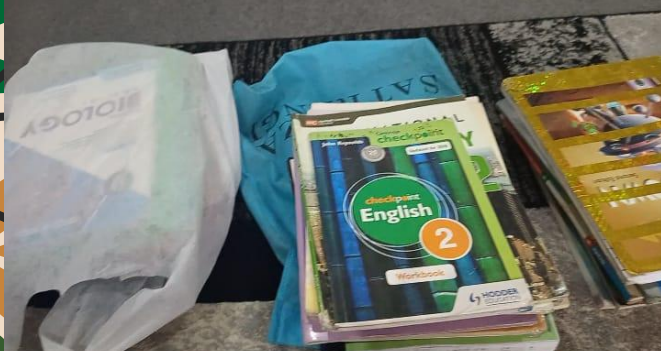

Activities

- ☐ Executed weekly activities including food distribution to 20 families
- ☐ book and stationery drives
- ☐ *mental health* interviews
- ☐ presentation and AI skills sessions
- ☐ cleaning and plantation drives
- ☐ gender equality interviews compiled into an awareness video.

Activities

Educational Sessions

Sessions Conducted

- Mental Health Awareness
- Presentation Skills Development
- AI Tools Introduction
- Gender Equality Awareness

Purpose

Build confidence and communication skills, reduce stigma around mental health, introduce practical AI tools for learning, promote equal educational opportunities, and encourage personal and academic growth among participants.

Impact & Lessons

Direct Outcomes

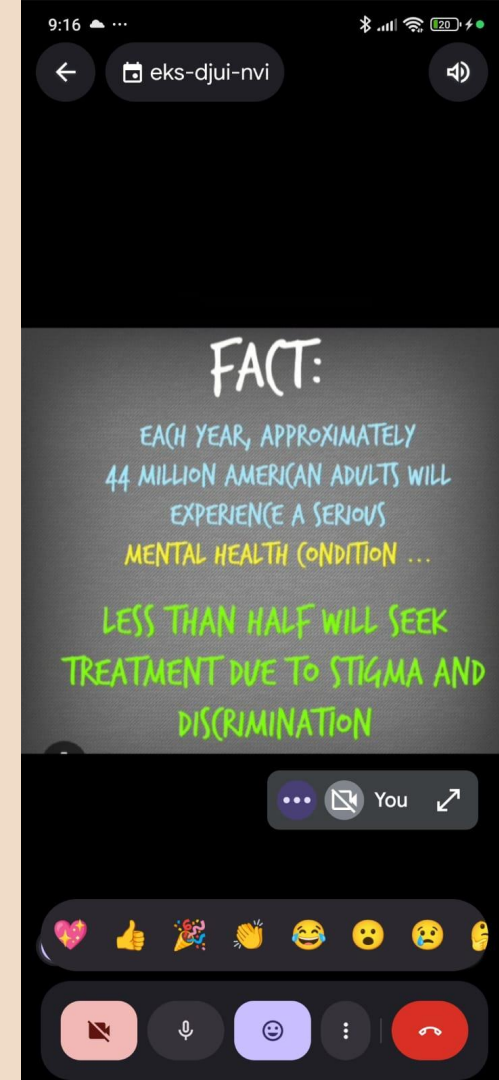

- ❑ 20 families received food support during Ramadan,
- ❑ 35 books were donated, and stationery packs distributed to students.
- ❑ **5 trees** planted and 35 students participated in online sessions,
- ❑ improving access to education and environmental engagement.
- ❑ Cleaning drives enhanced local conditions and generated
- ❑ measurable community participation.

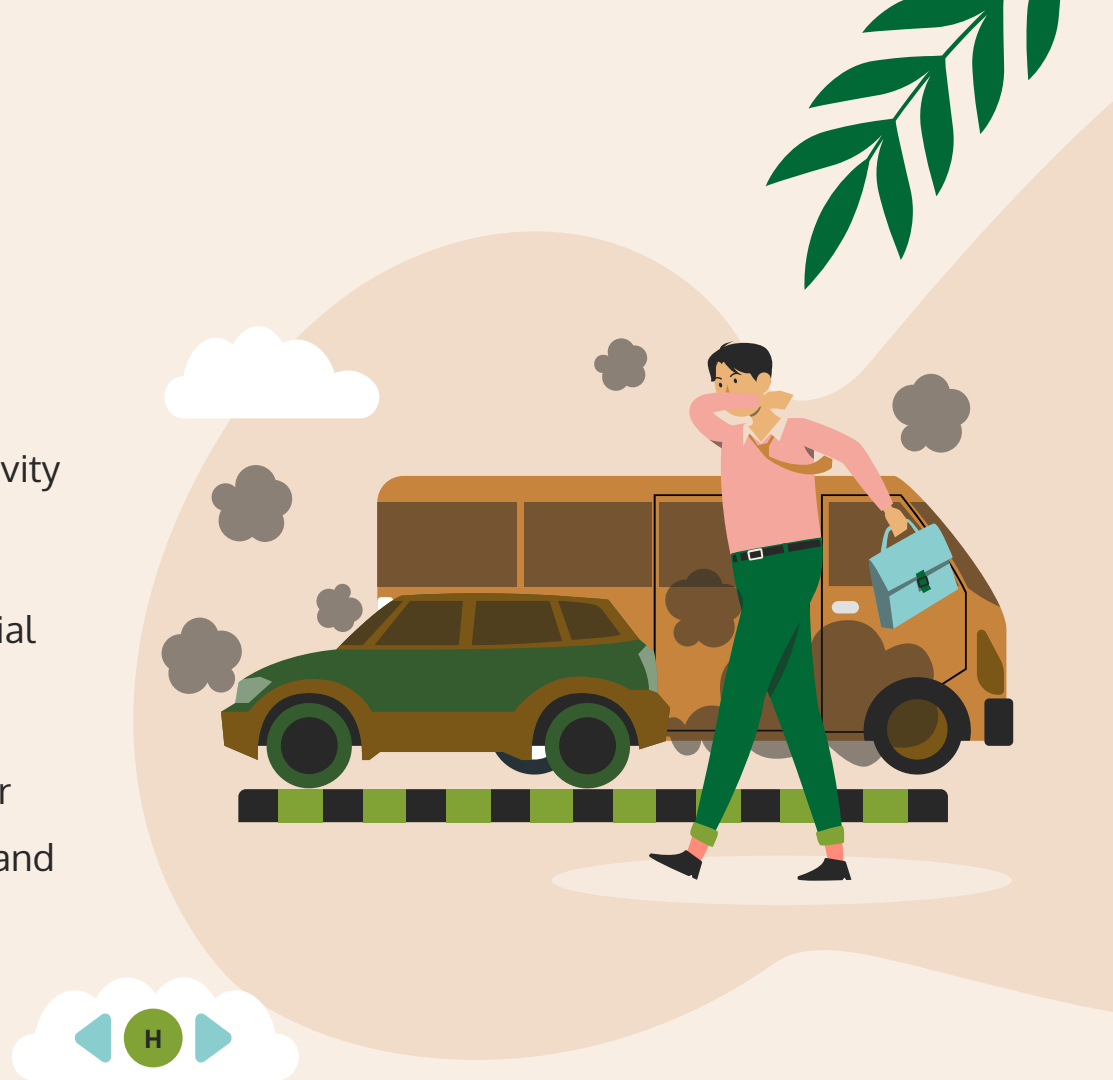

Indirect Impact

- ❑ Long-term community impacts include increased mental health awareness, a strengthened culture of responsible donation, improved teamwork and leadership skills among girls
- ❑ greater awareness of gender stereotypes, and higher community participation in climate action.
- ❑ Gender equality interviews were edited into a short awareness film for class presentation to amplify voices and spark discussion.

Challenges

- ❖ Limited direct coordination with Al-Khubaib Foundation constrained logistics and scheduling. Time management pressures affected activity scope and follow-up.
- ❖ Resource constraints reduced material outreach capacity.
- ❖ These issues highlighted the need for clearer stakeholder communication and contingency planning.

Future Plans

- ❖ Establish formal partnership channels with the foundation to streamline coordination and resource sharing.
- ❖ Scale book and stationery drives and implement regular mental health and skills workshops.
- ❖ Introduce monitoring metrics and community feedback loops to measure long-term impact.

Suggestions

Create Sustainable Volunteer Programs

Establish recurring student volunteer cohorts with clear roles, onboarding, and feedback cycles to retain momentum and institutional memory.

Boost Awareness on Girls' Education & Mental Health

Run targeted sessions in schools and community centers, combining storytelling, local champions, and accessible resources to reduce stigma and increase enrollment.

Follow-through After Plantations

Create small local maintenance teams, schedule seasonal check-ins, and publish simple care guides so saplings survive and grow into community assets.

Improve University–NGO Coordination

Set shared calendars, single-point contacts, and short pre-event syncs to streamline logistics, permissions, and volunteer

What we learned and Final Reflection

Empathy & Service Mindset

Direct engagement cultivates compassion—seeing needs up close changes how volunteers act and advocate.

Leadership & Teamwork

Rotating leadership roles and clear delegation create resilient teams that can scale initiatives responsibly.

Communication Skills

Planning, presenting, and local outreach sharpen volunteers' ability to mobilize resources and sustain partnerships.

Civic Responsibility

Community service links individual actions to broader social outcomes and aligns projects with UN SDGs for intentional impact.

Conclusions

- ❑ Project delivered tangible support to orphans and advanced girls' education through targeted activities and awareness campaigns.
- ❑ **Key takeaway:**
sustained partnerships and structured planning are essential to scale impact and ensure lasting community benefits.

The background is a light beige color. It features four stylized white clouds: one in the top-left corner, one in the top-right corner, and one centered at the bottom. On the left and right sides, there are decorative elements consisting of green and brown leaves on dark stems, with some pinkish-red leaves visible on the right side.

THANKS!
